

The project main dashboard provides the centralized access for overall project activities. It is a single page application having three pages organized in vertical tab.

1. Home

Home page show the overall progress, quarterly progress as well as yearly progress of selected activity either at project level, district level or at field unit level. It has Result-wise filter to select activity in any result. Home section has three sub menus i.e. comparison for selected activity with other geographic areas and overall/yearly/quarterly progress against work plan.

2. Data Explorer

This tab provide access to tabular resources for users who want to manually analyze data or export in MS Excel Format. It has several sub tab with greater detail in each sub category. Mainly there are four tabs.

The Data Explorer table provides a detailed breakdown of community organization formation progress across various field units and categories. The table includes columns for Social Mobilization, Community Institution, CHST, VO LMST, LSO LMST, Development Planning, Infrastructure CPI, and Livelihood. The data is organized by field unit (e.g., Jhal Magesh, Khasanar, Killa Abdullah, Loralai, Pishan, Wraohak, Zhab) and includes a summary row at the bottom.
