#### **Purpose of this document**

This document provides a basic overview of the data management portal **mis.brsp.org.pk** developed under Balochistan Rural Development and Community Empowerment (BRACE) Programme.

This document gives an intro of the main Tabs and Sub-Tabs. In addition, it also explains different features and different menus, sub-menus, buttons and the controls available on this portal.

As this system is designed on a built-on approach and it evolves with the progress of different components under BRACE programme. Therefore, changes in system design layout

However, the users' understanding on different components of the BRACE programme is mandatory to get benefit and use the data available on this data management portal.

It is strongly recommended that this document should not be used as data management guidelines under this programme.

(There certain hyperlinks in this portal that lead the user to secure reporting portal where the user can download the information mainly in PDF format. The guidelines of the reporting portal are not the part of this manual.)

#### **About this Version**

In this version, the attempt has been made to give an overview, explain each feature in detail and present some pictorial highlights/examples, so the users of online portal can understand the purpose and utility of each feature and use it while referring to online data portal

This first version i.e. 1.0, was developed and released with launch of this online data portal. The version covered only a brief intro of the system and the sitemap of the portal.

#### **Overview of Left Navigation Menu and Tabs/Sub-tabs**

The project main dashboard provides the centralized access for overall project activities. It is a singlepage application having three pages organized in vertical tab.

1. Home

Home page show the overall progress, quarterly progress as well as yearly progress of selected activity either at project level, district level or at field unit level. It has Resultwise filter to selectactivity in any result. Home section has three sub menus i.e. comparison for selected activity with other geographic areas and overall/yearly/quarterly progress against work plan.

The home page also contains additional tabs of **Progress, Comparison and Data Tables** that are visible at the bottom of the page as highlighted in the above image.

#### 2. Data Explorer

This tab provide access to tabular resources for users who want to manually analyze data or export in MS Excel Format. It has several sub tab with greater detail in each sub

#### 3. Analysis

Analysis tab provide access to multiple analysis based on data collected in different modules of the system.

- a. Demographics
  - i. Population
  - ii. Gender
  - iii. Women Headed Households
  - iv. Dependency

- c. Education
  - i. Literacy
  - ii. Head Education
  - iii. Child Education
  - iv. Maximum Education

#### d. WASH

#### **Overview of Data Filters**

#### Data Filter Bar

At the top of "Home" and all other Pages, Tabs and Sub-Tab a data filter bar is available

Project Result:	Result 01	✓ Activity:	1.02.01 CO Formation	×	Dis	strict:	All	Field Unit:	All	~ 8
	This <b>filter ba</b>	r allows user	to filter the:							
	i.	Result								
	ii.	Activity								

- iii. District
- iv. Field Unit wise

data on the portal.

By default, the Result 01 and the Activity 1.02.01 (CO Formation) is selected, while the geographic filters i.e. "District" and "Field Unit" are set on "All".

The user as per his/her requirement may select the required types from the drop-down list.

The Field Unit (FU) drop-down list is dependent on the district list. e.g. as shown in the pictures on left The list of Field Units under the selected district is visible. So, to make FU list visible, the user has to select the district first. Otherwise, only "All" will be displayed in dropdown list.

#### Data Filter Menu & Interacting with Tables

The table column headers include menu/sub-menus for data filter and adding/removing additional field. This feature is applicable on data explorer states the of the left navigation menu.

The drop-down menu feature enables on mouse-over (hovering the mouse on table-headers)

Pictorial example of drop-down menu and the sub-menus

#### Additional filters

This allows user to apply additional data filter on the column being interacted with. The sub-menu/options of "Filters" is dependent on the type of data in the column

#### Interacting with Charts

The portal also allows the user to interact with the charts to see the graphical presentation of the required variable. *This feature applies to* **Home** and **Analysis** tabs of Left Navigation menu. Here is pictorial example!

The dim and bright colours in the chart legend show the disable and enable status of the particular field(s) respectively.

#### **Data Downloading**

All the data tables available in this portal can be downloaded in three different widely and commonly used formats i.e. **.XLSX, CSV and HTML.** 

This allows user to use the available and/or customized data tables for their reports, presentations and generating further analysis for their specific reporting and decision making requirements.

Copyright © 2017-2022 BRSP

Once the user clicked on the required format the table download will start as per the browsers default or user customised settings

#### **Additional Controls**

There are some additional controls, that are available on some pages. These additional control have been added keeping in view the existing practices and ensuring the convenience of a certain group of users.

The controls are available at the bottom-right of the page.

Download button, works in similar way as defined in previous section

By clicking on this button the user can **clear all the filters applied on the data table** 

Refreshes the data, the newly uploaded data will be added in the table

#### BRACE – Data Management Portal

#### Hyperlinks and Link to secured Data Portal

In data tables there are certain fields that leads the user to secured data portal to download the household specific information. As, to ensure the confidentiality of household specific data such reports and downloadable material has been placed on a separate portal i.e. **reports.brsp.org.pk** which requires login credentials (username and password) that are created by the ICT after receiving the recommendation from relevant programme section(s).
